## Projects

### Movie App - MovieQ *(React + TMDB API)*

[LiveDemo](#) [Github](#)

- Real-Time Data - Integrated TMDB API for live movie details
- Smart Search - Added filters & infinite scroll for seamless browsing
- Performance Optimizations - Lazy-loaded images with Skeleton loading animations

### Speech To Text Converter *(React + Speech Library)*

[LiveDemo](#) [Github](#)

- Live Speech-to-Text - using Web Speech API for real-time voice transcription.
- Clean UI - built with React and Tailwind for easy user interaction.
- Fast Load & Deployment - via Vite and Vercel for optimized performance.

### Modern Frontend Portfolio *(React + Tailwind)*

[LiveDemo](#) [Github](#)

- Modern UI - Clean, responsive design with smooth animations
- Project Showcase - Interactive cards with live demo & code links
- Mobile-Optimized - Flawless experience on all devices
- Performance - Fast loading with minimalist assets

## EDUCATION

### Bachelor of Arts

Delhi university , Sol

2019 - 2022

### Diploma in Computer Science

Indian Institute of Computer science , Delhi

2022 - 2024

### Bachelor of Computer Applications

Indira Gandhi National Open University.

2023 - 2024

## CERTIFICATES

### Web Development , ReactJS Udemy

2024

- Completed a React JS course on Udemy, gaining hands-on experience in building modern web applications using components, hooks, and state management.
